KURZBESCHREIBUNG DER BEZEICHNUNGEN IM KATALOG

Vysvětlivky
Explanatory notes
Notes d'explication

B01 = Modellbezeichnung
B01 = Označení modelu
B01 = Model designation
B01 = Désignation du modèle

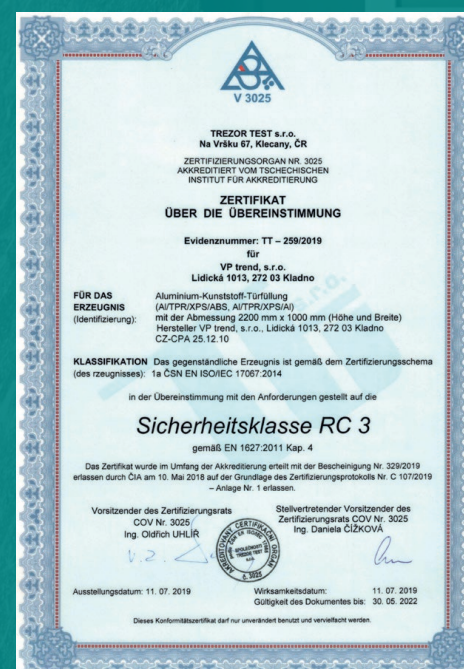

B01-AX = Modellbezeichnung - Rähmchen aus Alunox
B01-AX = Označení modelu - rámeček Alunox
B01-AX = Designation - Alunox frame
B01-AX = Désignation du modèle - cadre en Alunox

B01/22 = Modellbezeichnung / Sonderverglasung
B01/22 = Označení modelu / označení speciálního skla
B01/22 = Model designation / special glass designation
B01/22 = Désignation du modèle / désignation du vitrage spécial

B01/22-AX = Modellbezeichnung / Sonderverglasung - Rähmchen aus Alunox
B01/22-AX = Označení modelu / označení speciálního skla - rámeček Alunox
B01/22-AX = Designation / special glass designation - Alunox frame
B01/22-AX = Désignation du modèle / désignation du vitrage spécial - cadre en Alunox

Alle Rähmchen auch in Edelstahl gebürstet lieferbar (= AK).
Rámečky lze dodat i v nerezovém provedení
All frames can also be supplied in brushed stainless steel.
Tous les cadres peuvent également être fournis en inox brossé.

ALUNOX = Aluminium in Sonderausführung, Optik „Edelstahl gebürstet“
ALUNOX = Hliník ve speciální povrchové úpravě broušeného nerez
ALUNOX = Aluminium in a special finish with the appearance of brushed stainless steel
ALUNOX = Aluminium spécialement traité avec aspect inox brossé

Füllungen ohne Zierrahmen

Výplně bez ozdobného rámečku
Panels without decorative frame
Panneaux sans cadre décoratif

Füllungen der B-Serie mit Zierrahmen

Výplně série B s ozdobným rámečkem
„B“ series panels with decorative frame
Panneaux de série „B“ avec cadre décoratif

SANDGESTRAHLTES GLAS

ist einseitig auf der Oberfläche bearbeitet. Die vorgezeichneten Motive werden durch die variable Intensität des Sandstrahls erzeugt. Dadurch ist es möglich die unterschiedlichsten Charakteristiken und Motive zu erzielen.

PÍSKOVANÉ SKLO

má na svém povrchu obrazy a motivy, vybroušené proudem písku. Proměnlivou intenzitou proudu písku se dosahuje proměnlivé charakteristiky a tím i vzhledu vybroušených motivů.

SANDED GLASS

has pictures and motives on the surface, which are abraded by a stream of sand. Due to variable intensity of the sand stream, different characteristics and visual aspects of the abraded motives are achieved.

VERRE SABLÉ

avec divers dessins et motifs dépolis au jet de sable à intensité variable. Le procédé de sablage permet d'obtenir un relief sur le verre qui donne un aspect différent des motifs dépolis.

SANDGESTRAHLTES GLAS MIT DEKOR

hier wird der sonst eher nüchterne Charakter der gestrahlten Oberfläche mit aufgetragenen Elementen aus Glasfacetten, geschliffenem Ornamentglas bzw. aus eingeschmolzenem Farbglas verfeinert. (Sandgestrahlte Verglasungen werden auf dem Hintergrund des Ornamentglases „Kathedral gross“ erstellt).

PÍSKOVANÉ SKLO S DEKOREM

U pískovaného skla s dekorem je jinak strohý projev pískovaného povrchu zjemněný nalepenými prvky ze skleněných fazet, vybrušovaného ornamentního skla, nebo ze spékaného barevného skla. (Pískovaná skla s dekorem jsou fotografována na pozadí skla „katedrál velký“.)

In case of SANDED GLASS WITH DECORATIONS,

the otherwise sober impression of the sanded surface is refined by glued elements of glass facets, cut ornament glass or fused colour glass. (Sanded glass with decoration is photographed against a background of decorative glass “Cathedral big“.)

VERRE SABLÉ AVEC DÉCOR

un verre dépoli au jet de sable et affiné par divers éléments collés à la surface. Il s'agit de facettes de verre, d'éléments de verre ornemental taillé ou de verre fusing de couleur. (Le verre sablé avec décor est photographié sur le fond du verre “martelle“.)
